**Company Profile:-**

**Admiral Technologies**

<http://www.admiraltechnologies.in>

We are part of one of the largest Insurance groups in UK, Admiral Group PLC. Admiral Technologies was started in October 2008 with 6 employees and has reached more than 160 employees depicting a growth which has been in heaps and bounds. Legally it was setup in Feb 2009.

Admiral Technologies was set up to support Admiral in launching Price Comparison businesses around the world. It takes care of the entire IT Development and support of the price comparison businesses and also works with UK, Italian and USA Insurance companies. Spanish, French, Mexico, Turkey and US Price comparison websites were developed and are being maintained presently from current office in India.

We are proud to have an open and honest culture that wholeheartedly focuses on four key areas:

Communication, Equality, Rewards and Fun. We also have our Ministry of Fun which organizes fun events for everyone throughout the year. We are a GPTW (Great Places to Work) certified organization and have been rated 26th in the category of mid-sized organization in the industry. Yet again we are certified and rating to be announced soon.
